About us

Cusum Energy Ltd is a leading Kenyan engineering company specializing in innovative energy solutions. Managed by a team of qualified professionals, we focus on risk mitigation, safety enhancement, and cost reduction through efficient processes.

Our goal is to deliver tailored solutions that promote energy efficiency and sustainability, helping clients understand the benefits and importance of these practices. Our mission is to deliver tailored energy solutions while educating clients on energy efficiency and sustainability.

Our team includes Certified Energy Managers (CEMs), Certified Water Efficiency Professionals (CWEP), Energy Auditors, and Solar PV Technicians, among others, all certified by recognized bodies like the Association of Energy Engineers and the Energy and Petroleum Regulatory Authority (EPRA). Cusum Energy is licensed by the National Construction Authority (NCA) to handle mechanical and electrical installations, maintenance, and minor civil works.

With a strong commitment to sustainability, Cusum Energy helps clients achieve their energy efficiency goals, creating long-term value through expert guidance and solutions.

What we do

At Cusum Energy, we offer tailored solutions designed to meet the unique needs and circumstances of our clients. Our extensive range of services is backed by a strong track record of world-class expertise and local knowledge, ensuring that our clients benefit from customized, all-inclusive project delivery partnerships.

Our comprehensive services include:

-  Feasibility Studies, Market Assessments and Specialist Consultancy
-  Energy Efficiency & Sustainability Advisory
-  Carbon footprint ,GHG Studies and Carbon Markets Advisory.
-  Renewable Energy Advisory.
-  Water Efficiency & water Management
-  Solar Energy Solutions .
-  Electrical & Mechanical Engineering

Every unit of energy saved, every drop of water conserved, and every tonne of carbon reduced contributes to a more sustainable future. Through practical, data-driven solutions, CUSUM Energy helps organizations achieve sustainable growth, improve operational efficiency, and strengthen long-term environmental stewardship.
